## Pump Station Preventative Maintenance

Kennedy Industries is your single-source maintenance provider. Pumps, controls, generators – the entire pump station.

### Imagine a World Where...

Your pump station is always compliant with manufacturer's warranty.

Peak efficiency is maximized, as are your savings on electrical costs.

Potential danger, like arc flash and confined space, is eliminated.

Lift station failure and unexpected expense are nearly eliminated.

You have turnkey maintenance for your entire pump station, including the generator.

Highly trained, well equipped, and reliable technicians are always on call.

## Plus 24-HOUR Emergency Service!

Pump station preventative maintenance is recommended at least once per year to help sustain the efficiency and reliability of the pump station. Identifying minor repairs before they become a major or complete failure can save the customer thousands of dollars and eliminate downtime. Kennedy Industries has an entire fleet of service trucks and technicians readily available to maintain your station on an annual, semi-annual, quarterly or monthly basis. Each preventative maintenance contract is designed to meet your station's individual requirements.

## STANDARD MAINTENANCE CHECK POINTS:

- ✓ Inspect level control device(s) in pump chamber and controls for proper operation
- ✓ Check hour meters and record readings
- ✓ Inspect and record amp and voltage readings for each pump
- ✓ Check indicator lights for burned out bulbs and replace
- ✓ Inspect and tighten all electrical terminal connections
- ✓ Verify proper telemetry and station monitoring
- ✓ Pull pumps and change seal oil when necessary
- ✓ Check impeller clearance for maximum efficiency
- ✓ Check for deteriorating parts on pumps, controls and generators
- ✓ Verify proper valve operation
- ✓ Replace filters and oil on generators
- ✓ Provide detailed station maintenance report

## PAIN RELIEF From the Get Go!

Plan on preventative maintenance from Start Up. It will keep your equipment performing at peak efficiency, lengthen life cycle, and avoid any unnecessary expenses. It will also maintain manufacturers' warranties and insure the safety of your pump station and its staff.

Kennedy Industries is the only call you need to make for total pump station maintenance.
